About Us: Crafting Beauty in Concrete and Bricks Showroom!

At Good Hand Stones and Concrete Flooring LLC, we are passionate about transforming ordinary spaces into extraordinary masterpieces. Our showroom is your gateway to a world where creativity meets craftsmanship, and where your imagination comes to life through the versatility of decorative concrete and bricks.

Established with a vision to redefine the landscape of architectural design, we pride ourselves on delivering excellence through our unparalleled products. Good Hand SCF has been a pioneer in the industry for 10 years. We are more than just manufacturers; we are creators, innovators, and collaborators, dedicated to delivering excellence in every project.

Step into our showroom and immerse yourself in a diverse range of decorative concrete and bricks options. From sleek and modern designs to rustic and traditional aesthetics, we offer an extensive selection to suit every style and preference. Whether you're looking to enhance your home, office, outdoor area, or commercial space, we have the perfect solution for you.

What sets us apart is our relentless pursuit of perfection. Each of our concrete and brick creations is meticulously crafted by skilled artisans who pour their expertise and passion into every detail. From intricate patterns to bold textures, our products exude character and charm, breathing life into any environment they grace.

Moreover, sustainability lies at the heart of everything we do. We are committed to eco-friendly practices, using responsibly sourced materials and employing innovative techniques to minimize our environmental footprint. By prioritizing sustainability, we not only protect the planet but also ensure that our creations endure for generations to come.

Our Products:

Explore our comprehensive range of products, including:

- Exposed Aggregate Concrete
- Stamped Concrete
- Bricks
- Micro Topping
- Render System
- Stones
- Tiles
- Sanitary Ware
- And much more!

Visit Us Today:

Experience the endless possibilities of decorative concrete and bricks firsthand at Good Hand SCF Showroom. Whether you're a homeowner, architect, designer, or contractor, We invite you to unleash your creativity and explore the limitless potential of our Products.

Transform your space with Good Hand SCF—where innovation meets imagination, and ordinary becomes extraordinary. We look forward to welcoming you soon!

“Artificial Stones are available in several variety”

Artificial Stones made in UAE

Artifical Stones

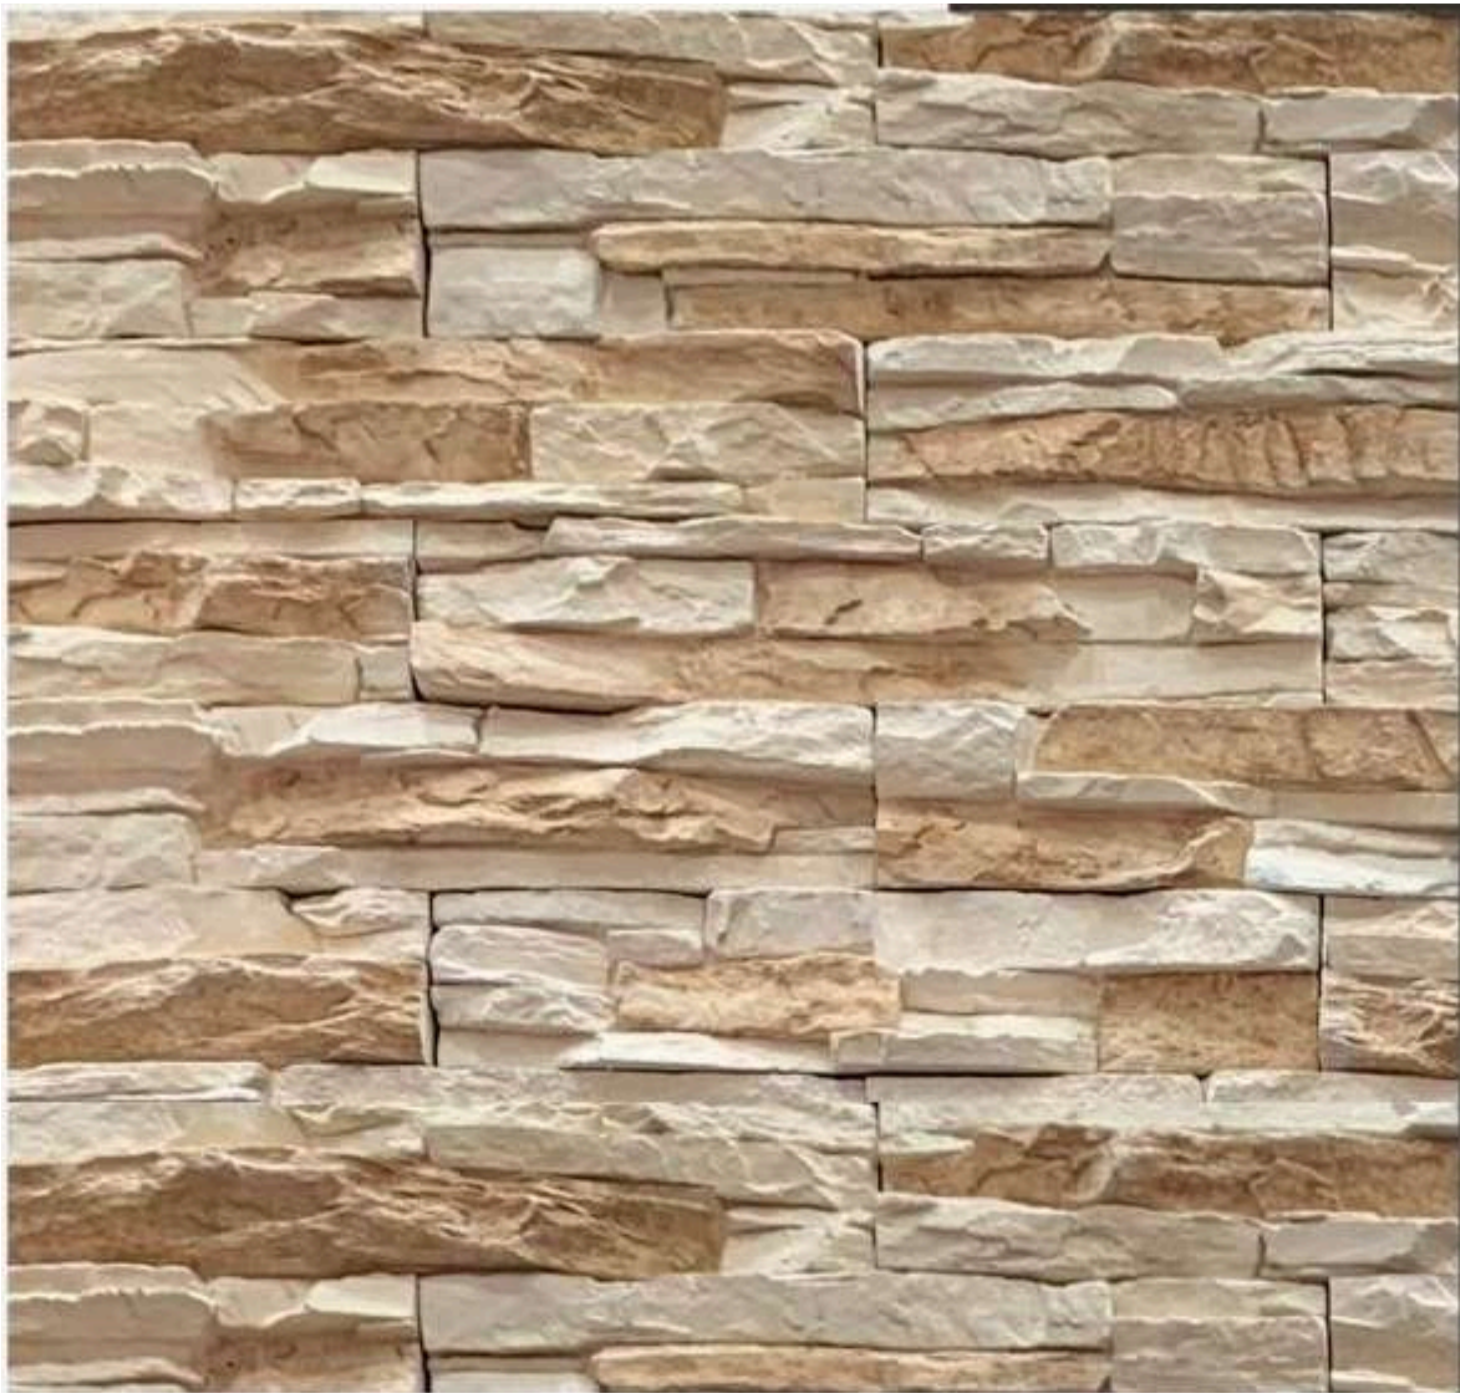

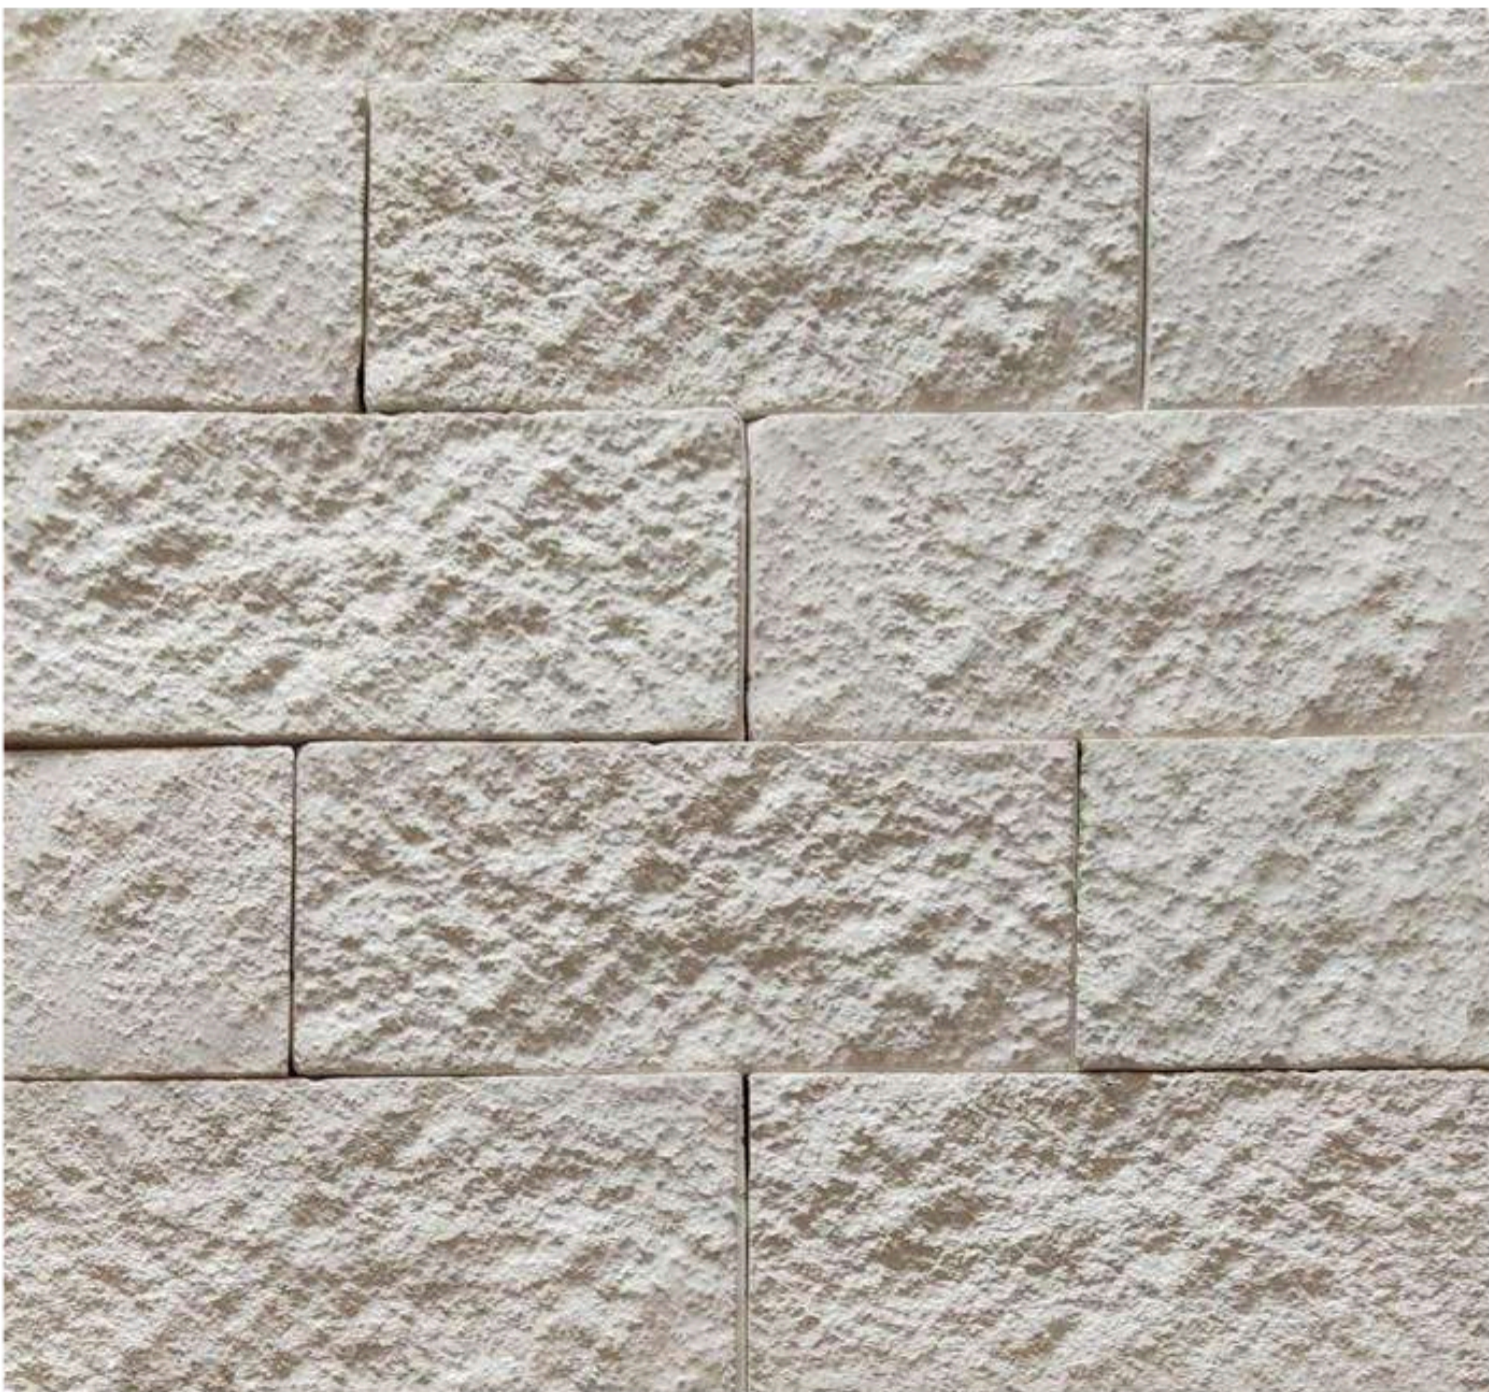

Technical Data Sheet

Product Description

Our artificial stones & bricks are designed for use over existing concrete and masonry, both Interior and exterior. Artificial stone is a blend of micro silica aggregates, Cement, white sand, German color pigments, and various additives that produce a stone. Artificial stones and bricks come in different textures, colors, and patterns to replicate a wide variety of finishes such as brick, tile, slate, and more. Once sealed, artificial stone is virtually water-impermeable, allowing it to be used in areas where water would otherwise pose a problem. In addition, because of its lightweight composition, it can be added to load-bearing walls, steel, masonry, calcium silicate walls, or other partitioned material.

Product Specification

- It is manufactured from high-quality materials that are carefully selected. As a result, the material can withstand the harsh effects of adverse weather conditions.
- It is available in different forms and designs with a variety of colors to satisfy all tastes.
- It presents an ideal substance that isolates the outer surface from moisture and temperature.
- It is fastened to the construction of a substance firmly because its back surface is covered
- with the ideal type of pebbles.
- It is lower in cost for traditional material having comparable and to achieve similar design
- effect.
- It requires minimum maintenance as compared to other traditional construction materials.
- It is washable and can be easily cleaned.

Installation

There are many methods for fixing stone, but some specified are:

- Wet fix (Tile Adhesive)
- Wet fix (Cement Mortar)
- Dry fix (mechanical Cladding)

1. For D-STONE, Wet fixing with cement mortar is one of the methods compatible with this kind of stone which is covered with chips marble from its backside (fixing side). 2. For MOUNTAIN STONE, Mechanical fixing is one of the best solution keeping in mind the size of the stone and the weight of the stone. 3. For Valley STONE, both mechanical and Wet fixing are the suitable options.

The steps for these methods are: -

1. Water Curing
2. Mortar application
3. Installation of Stone
4. Water Curing after Fixing
5. Filling Joints between the Stones if applicable

Packaging

Our Artificial stone comes in individual packages containing material to install 1 m² area with the weight of approximately 30 kg and can be carried easily.

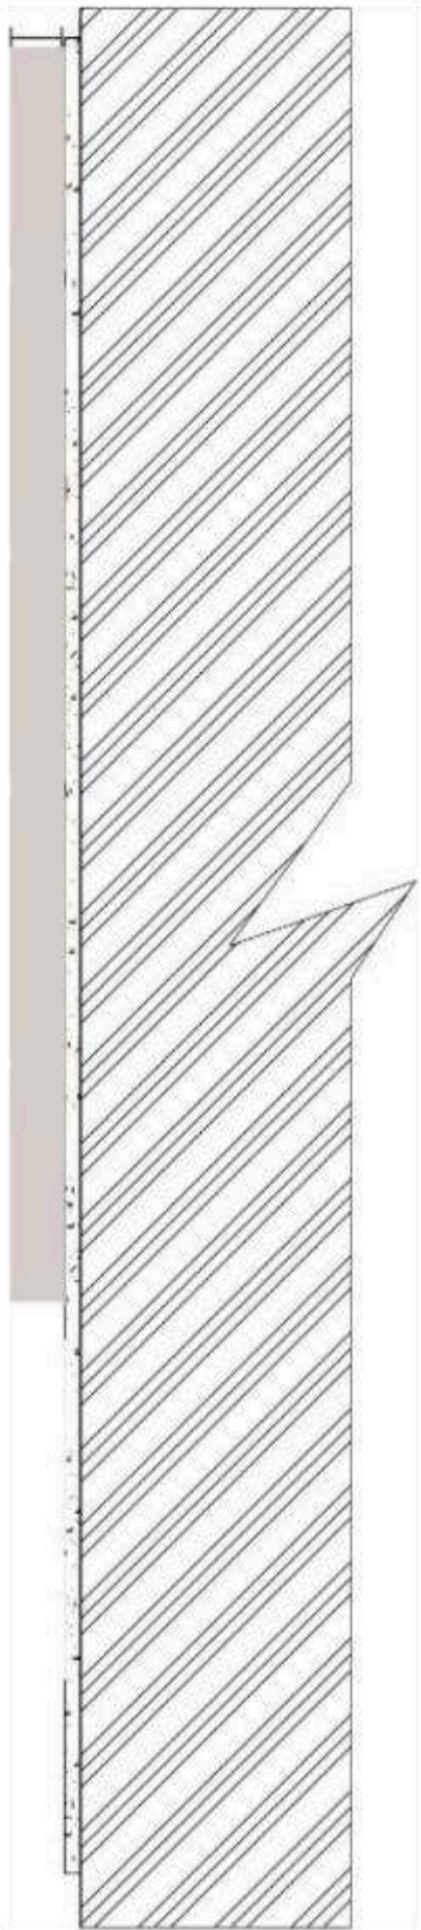

Limited Warranty

Our products are free from manufacturing defects. However, Good Hand Technical Services LLC does not warrant or guarantee the artistry performed by any person/firm installing its products unless that firm is on the list of our official applicator. In no event shall Good Hand Technical Services LLC be liable for any incidental or consequential damages.

WET FIXING OPTION 1 FOR D-STONE

WET FIXING OPTION 1 FOR D-STONE

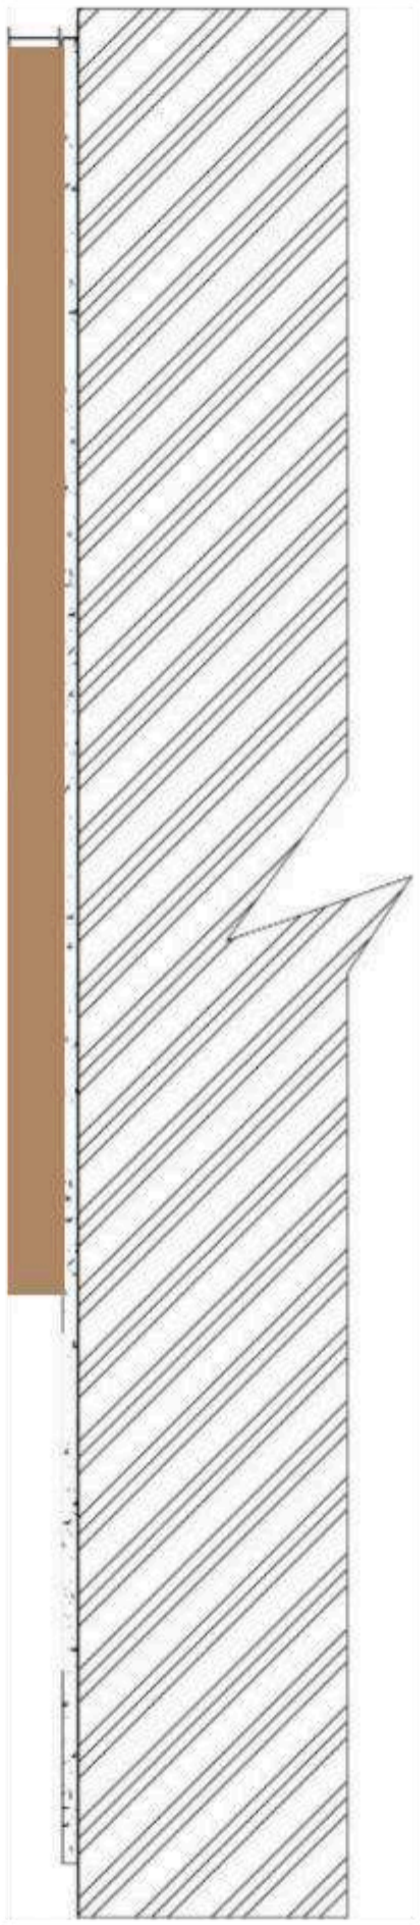

MATERIAL PERCENTAGE FOR D-STONE

Material	Physical Specifications	Percentage
Chips Material	Solid 30%	30%
White Sand	Solid	15%
Silica sand	Solid	10%
Water, colors & chemicals	Liquid	10%

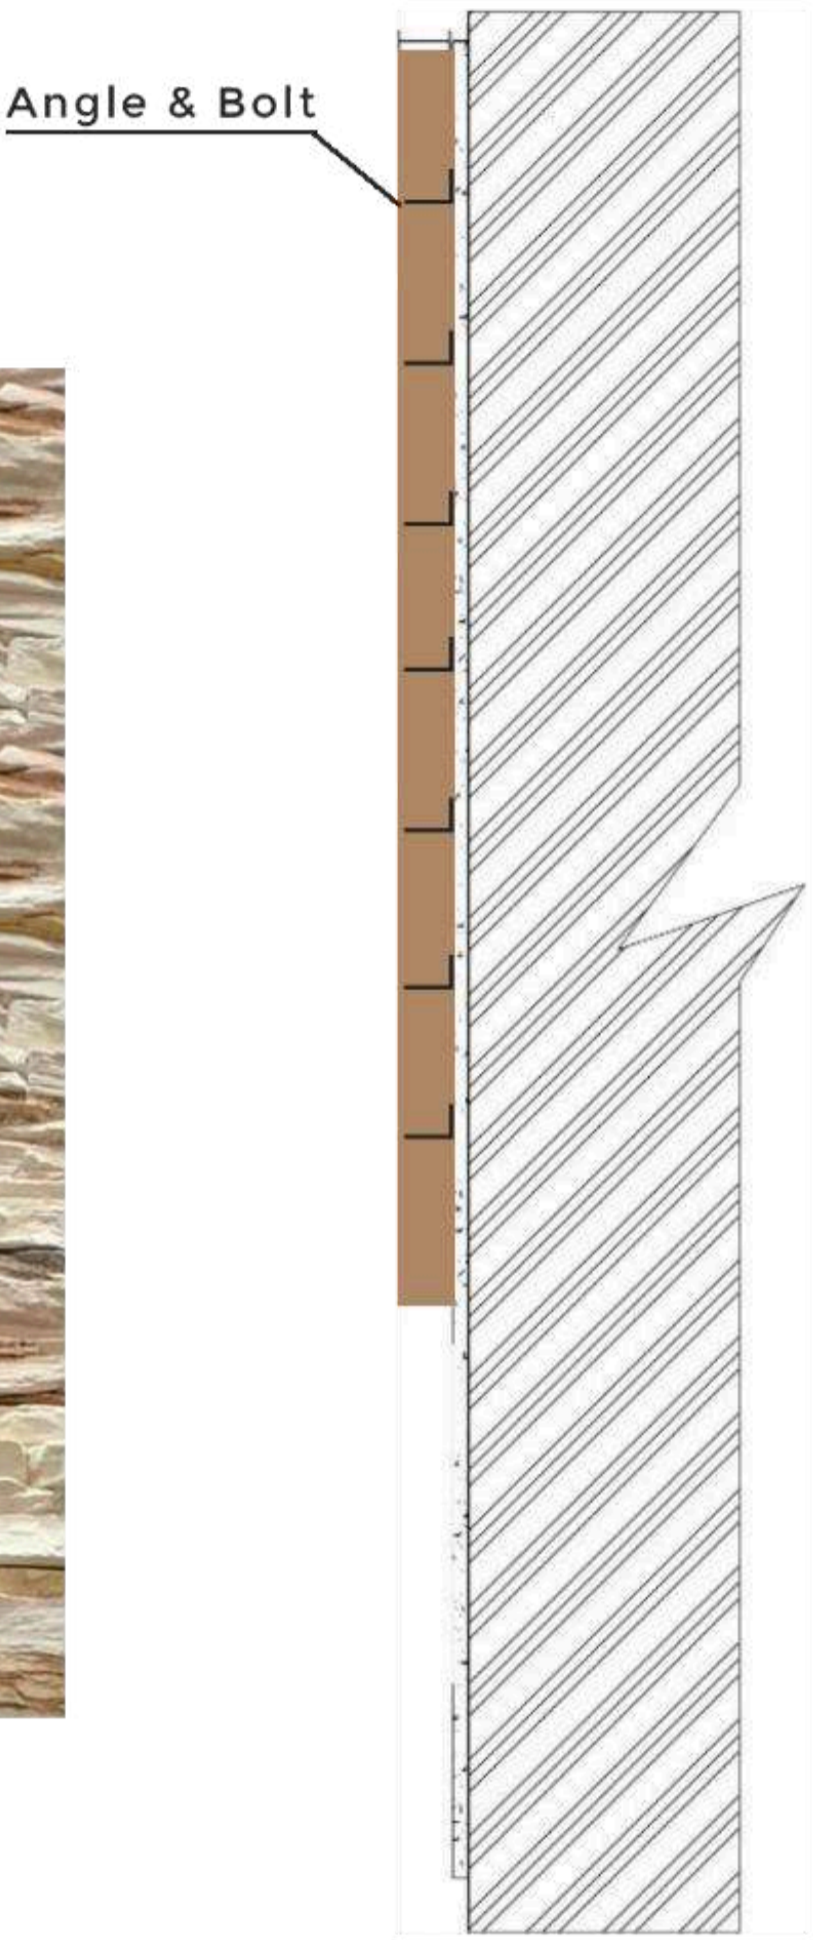

TESTING OF D-STONE

Water Absorption	6% depending on texture, to be tested further.
Compressive Strength	Avg. 09.00 N/mm2 (can be modified)
Unit Weight of D-Stone as DIM (435*200*25) mm	3000:3500 gm
Chemical & Sulfate Resistance	It has good chemical resistance and sulfate resistance to prevent deterioration from acid, rain and other air bone pollutants.
Non-combustible	Good Hand Stone brand products showed zero flame spread and zero smoke development.

WET FIXING OPTION FOR VALLEY STONE

DRY FIXING OPTION FOR VALLEY STONE

MATERIAL PERCENTAGE OF VALLEY STONE

Material	Physical Specifications	Percentage
Chips Material	Solid 30%	30%
White Sand	Solid	15%
White Cement	Powder	30%
Silica sand	Solid	15%
Water, colors & chemicals	Liquid	10%

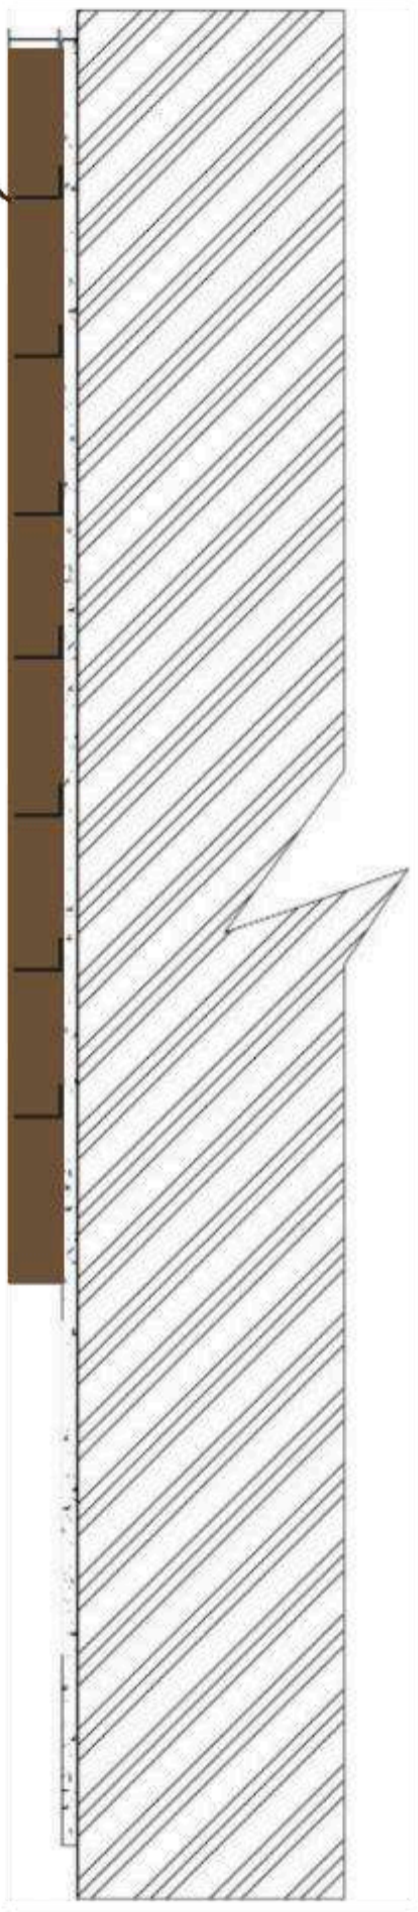

TESTING OF VALLEY STONE

Water Absorption	6% depending on texture, to be tested further.
Compressive Strength	Avg. 07.00 N/mm2 (can be modified)
Unit Weight of D-Stone as DIM (500*100*25) mm	2500:3000 gm
Thermal Properties	U-value is 0.570 based on a (25mm) thick sample.
Chemical & Sulfate Resistance	It has good chemical resistance and sulfate resistance to prevent deterioration from acid, rain and other air bone pollutants.
Non-combustible	Good Hand Stone brand products showed zero flame spread and zero smoke development

DRY FIXING OPTION FOR MOUNTAIN STONE

Angle & Bolt

MATERIALS PERCENTAGE MOUNTAIN STONE

Material	Physical Specifications	Percentage
Chips Material	Solid 30%	30%
White Sand	Solid	15%
White Cement	Powder	30%
Silica sand	Solid	15%
Water, colors & chemicals	Liquid	10%

TESTING OF MOUNTAIN STONE

Water Absorption	6% depending on texture, to be tested further.
Compressive Strength	Avg. 09.00 N/mm2 (can be modified)
Unit Weight of D-Stone as DIM (600*300*25) mm	10000:11000 gm
Thermal Properties	U-value is 0.570 based on a (25mm) thick sample
Chemical & Sulfate Resistance	It has good chemical resistance and sulfate resistance to prevent deterioration from acid, rain and other air bone pollutants.
Non-combustible	Good Hand Stone brand products showed zero flame spread and zero smoke development
