About Us: Crafting Beauty in Concrete and Bricks Showroom!

At Good Hand Stones and Concrete Flooring LLC,, we are passionate about transforming ordinary spaces into extraordinary masterpieces. Our showroom is your gateway to a world where creativity meets craftsmanship, and where your imagination comes to life through the versatility of decorative concrete and bricks.

Established with a vision to redefine the landscape of architectural design, we pride ourselves on delivering excellence through our unparalleled products. Good Hand SCF has been a pioneer in the industry for 10 years. We are more than just manufacturers; we are creators, innovators, and collaborators, dedicated to delivering excellence in every project.

Step into our showroom and immerse yourself in a diverse range of decorative concrete and bricks options. From sleek and modern designs to rustic and traditional aesthetics, we offer an extensive selection to suit every style and preference. Whether you're looking to enhance your home, office, outdoor area, or commercial space, we have the perfect solution for you.

What sets us apart is our relentless pursuit of perfection. Each of our concrete and brick creations is meticulously crafted by skilled artisans who pour their expertise and passion into every detail. From intricate patterns to bold textures, our products exude character and charm, breathing life into any environment they grace.

Moreover, sustainability lies at the heart of everything we do. We are committed to eco-friendly practices, using responsibly sourced materials and employing innovative techniques to minimize our environmental footprint. By prioritizing sustainability, we not only protect the planet but also ensure that our creations endure for generations to come.

Our Products:

Explore our comprehensive range of products, including:

- Exposed Aggregate Concrete
- Stamped Concrete
- Bricks
- Micro Topping
- Pool Renders
- Stones
- Tiles
- Sanitary Ware
- And much more!

Visit Us Today:

Experience the endless possibilities of decorative concrete and bricks firsthand at Good Hand SCF Showroom. Whether you're a homeowner, architect, designer, or contractor, We invite you to unleash your creativity and explore the limitless potential of our Products.

Transform your space with Good Hand SCF—where innovation meets imagination, and ordinary becomes extraordinary. We look forward to welcoming you soon!

DID YOU KNOW ?

Every day, Good Hand Stones and Concrete Flooring makes a big difference by actively contributing to an 82% decrease in CO2 emissions, helping protect the ozone layer and lower greenhouse gases. Our commitment to sustainability ensures a healthier future for all. Plus, we're proud to say that unlike others, we don't use ovens for our bricks, further reducing our environmental footprint.

"Bricks are available in several colors and textures."

"Our bricks are made in UAE."

Technical Data Sheet

Product Description

Bricks are designed for cladding use over existing concrete and masonry. Bricks are a blend of micro silica aggregates, Cement, white sand, German colour pigments, and various additives that produce Bricks. Bricks come in different textures, colours, and patterns to replicate a wide variety of finishes such as brick, tile, slate, and more. Once sealed, Bricks are virtually water-impermeable, allowing it to be used in areas where water would otherwise pose a problem.

Because of its lightweight composition, it can be cladded on load-bearing walls, steel, masonry, calcium silicate walls, or other partitioned material

Product Specifications

- It is manufactured from high-quality materials that are carefully selected. The material can withstand the harsh effects of adverse weather conditions.
- It is available in different forms and designs with a variety of colours to satisfy all tastes.
- It presents an ideal substance that isolates the outer surface from moisture and temperature.
- It is fastened to the construction of a substance strongly because its back surface is covered with excellent types of pebbles.
- It is lower in cost for traditional materials having comparable and to achieve similar design effect.
- It requires minimum maintenance as compared to other traditional construction materials.
- It is washable and can be easily cleaned.

Installation

There are many methods for fixing Bricks, but some are specified for bricks such as:

- Wet fix (Tile Adhesive)
- Wet fix (Cement Mortar)

Wet fixing with Tile Adhesive is one of the methods that is compatible with this kind of brick that is covered with chips of marble from its back side (fixing side). We recommend Tile Adhesive fixing for internal and external fixing for this project.

The steps for these methods are: -

- Water Curing.
- Adhesive application.
- Installation of bricks.
- Water Curing after fixing.
- Fill joints between the bricks with Good Hand SCF Grouts.

Packaging

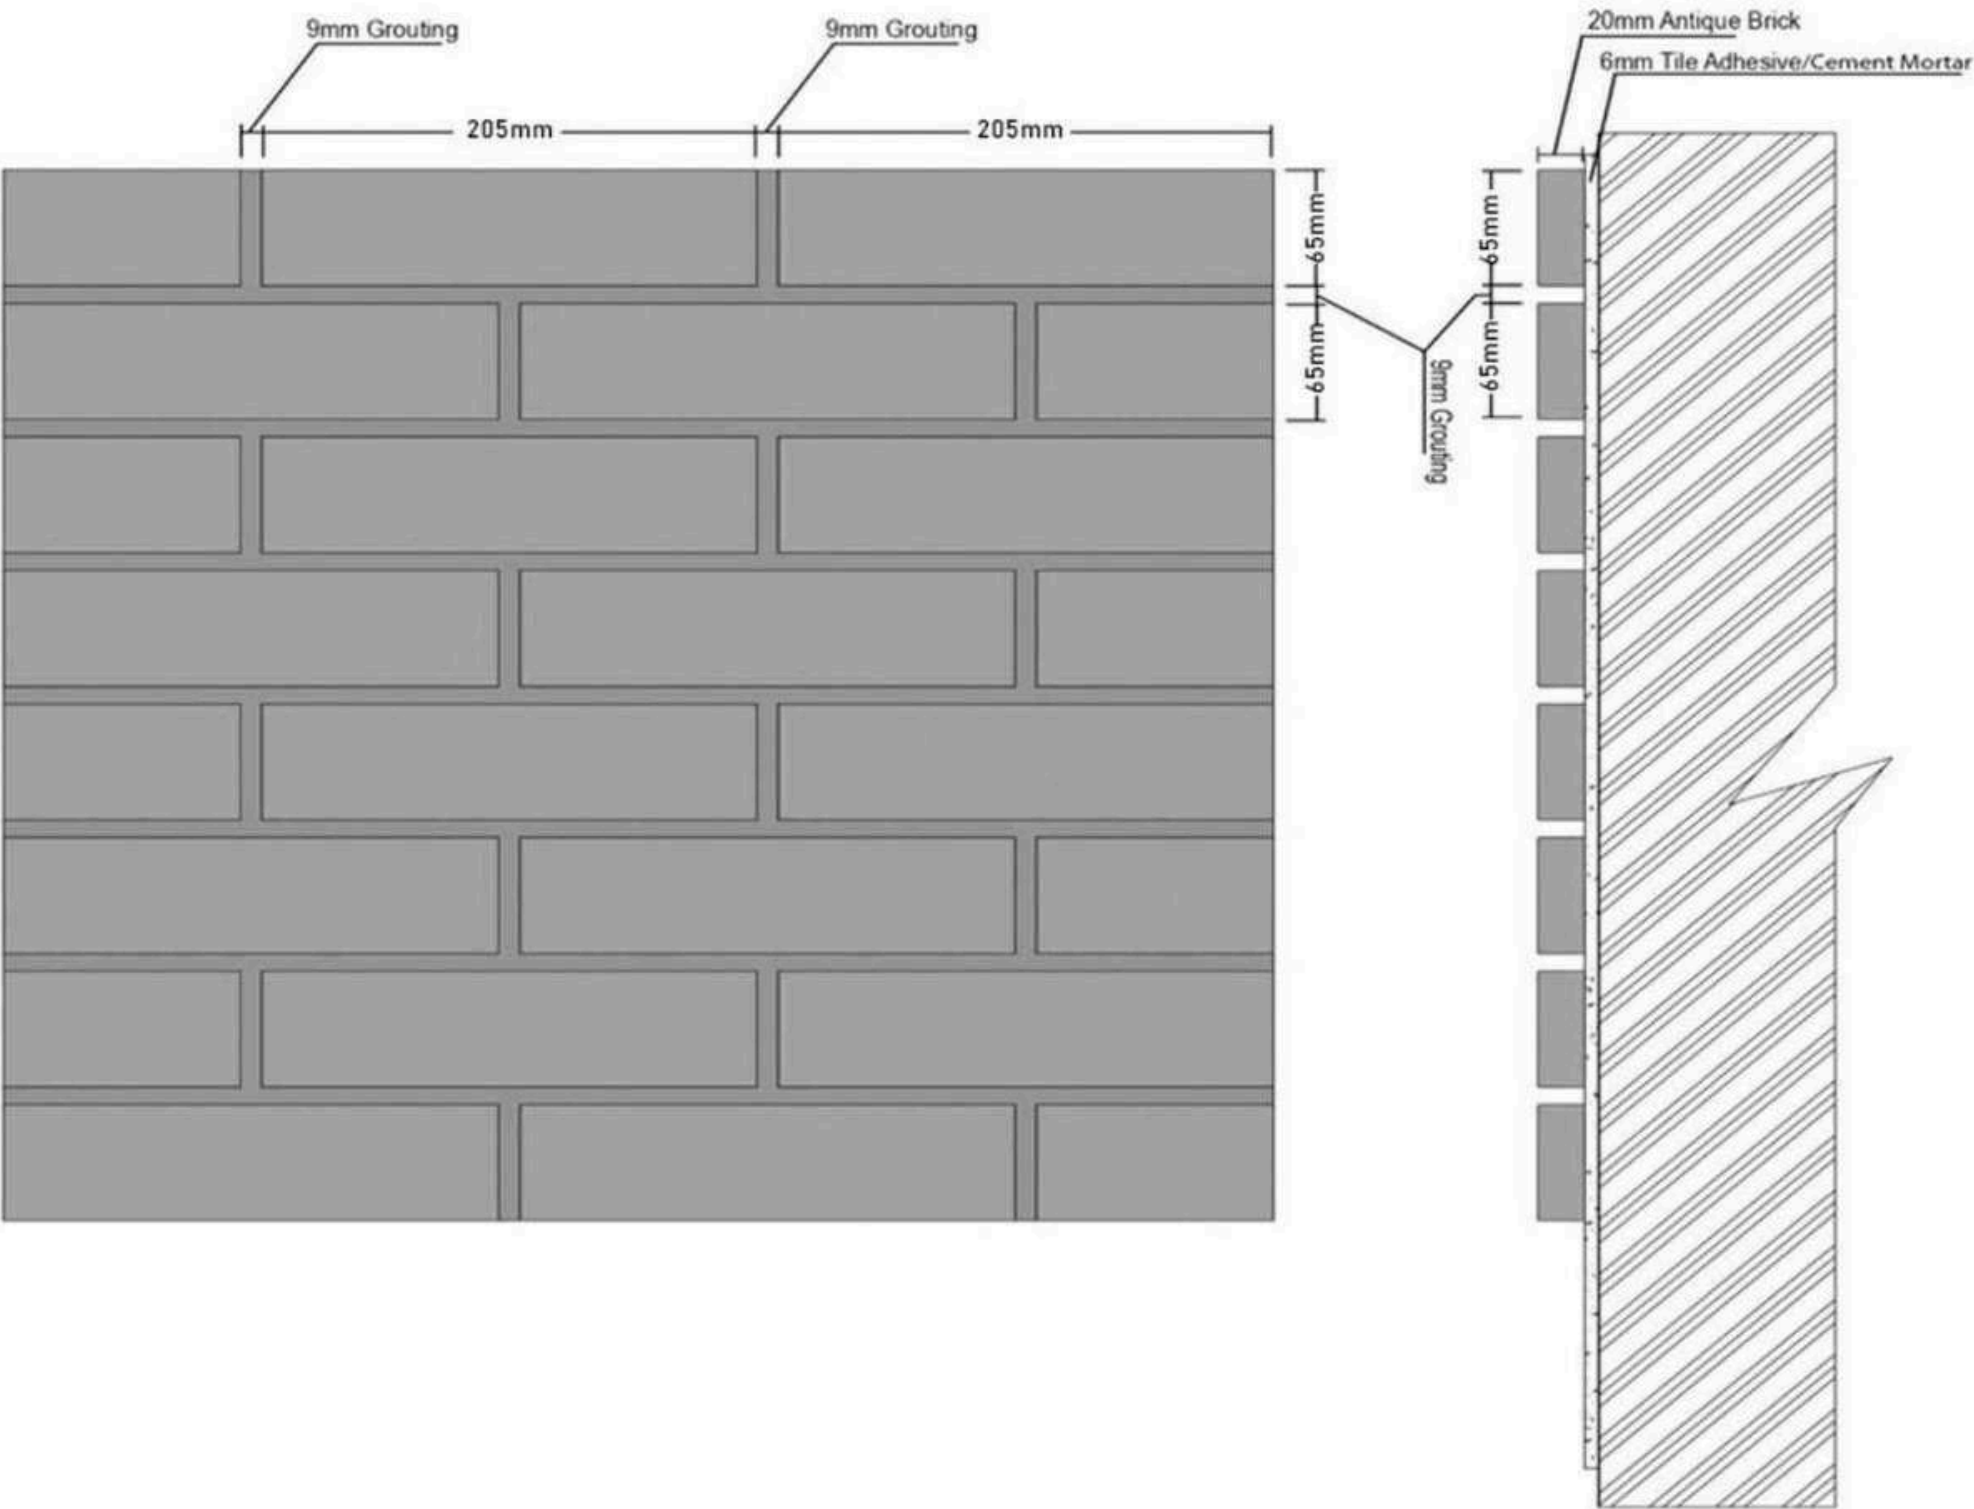

Our Bricks come in individual packages containing material to install 1 m2 area with weight of approximately 24 kg and can be carried easily.

Limited Warranty

Our products are free from manufacturing defects, Good Hand Stones and Concrete Flooring L.L.C does not warrant or guarantee the workmanship performed by any person/firm installing its products, unless that firm is in the list of our official applicator.

In no event shall Good Hand Stones and Concrete Flooring L.L.C be liable for any incidental or consequential damages.

Wet Fixing

Materials Percentage

Material	Physical Specifications	Percentage
Chips marble	Solid	30%
White sand	Solid	15%
White Cement	Powder	30%
Silica sand	Solid	15%
Water, colors & chemicals	Liquid	10%

Testing

Water Absorption	1-2% depending on texture, to be tested further
Compressive Strength	Avg. 16.00 N/mm ² (can be modified)
Unit Weight of Antique Brick as DIM (205*65*15) mm	350:500 gm
Thermal Properties	U-value is 0.570 based on a (20mm) thick sample.
Non-combustible	Good Hand Stones and Concrete Flooring L.L.C brand products showed zero flame spread and zero smoke development.
